Career Tech students focus their energy on creating renewable energy

★ Students in the Project Lead the Way Engineering program at Timken High School just completed a project in which teams designed and created a renewable electrical energy generating and distribution system that utilizes only wind, solar electric, and fuel cell energy conversion systems.

The students started off the project with a presentation on Fuel Cell systems from CEO of Rolls Royce Fuel Cell Systems – Mr. Mark Fleiner. The teams’

systems design effectiveness was based on the total number of successfully supplied industrial and residential consumers during a simulated 24 hour period. Timken HS and Rolls-Royce are looking for further options to develop a relationship to add value and benefit to both organizations.

A letter from Michele Evans, Ph.D., Superintendent

What a winter! The monster winter storm we recently had was quite an experience! At one point, we had 75% of our buildings with no power! It was great to get kids back in school. I hope that things have returned to normal at your home and/or business.

As I read through this issue of The CCS Connection I was struck by the number of collaborative relationships that have been established with our schools and community. Although we weren't seeking to highlight this aspect of our District in this issue, it certainly came through loud and clear to me. It was gratifying to see the progress that we have made since 2006 when a large community committee was established to talk about 21st century education in the Canton City Schools. "Real world experiences" and "partnerships" came up time and time again. As you will see as you read through this issue, our students have many opportunities that simply aren't available other places to engage in real-world work with people in our community, engaged in a variety of professions. The partnerships you will read about are only a small sample of what is going on in our schools. I can say that each and every school in our district has at least one working partnership with the community—either through a business, government entity, community agency, higher education partnership or community organization. Our kids are getting some awesome experiences.

One of the partnerships that has experienced some outstanding recent results didn't occur before we needed to go to print with this newsletter, but I wanted to mention it here. Congratulations to the McKinley Mock Trial Team, which made it to the regional competition! Two teams from McKinley will join two teams from St. Thomas as the area representatives. The competition is sponsored by the Ohio Center for Law-Related Education. Students play the roles of attorneys and witnesses and the competition is judged by local judges and attorneys. We are so grateful to John Kaminski, attorney from Day Ketterer, who advises the McKinley team. Congratulations, students and thanks Mr. Kaminski!

The other event which occurred very close to our publication date was "Give Kids a Smile." There is a brief synopsis of this event at the end of the newsletter, but it is certainly worth mentioning here. The Ohio Dental Association sponsors this event. Area dentists and other dental professionals volunteer to visually examine and repair students' teeth, and teach our kids how to better care for their teeth. The Ronald McDonald House sponsors a dental van that allows two dentists to work on students. What a cool dentists' office! 150 students from Belden Elementary and McGregor Elementary were the recipients of this outstanding care. The Hartford Middle School choir presented a song of appreciation for the volunteers. We are so thankful to the Ohio Dental Association and the many area dental professionals who generously volunteered their time and expertise. We are also thankful to the sponsors of the event, which was held at the Pro Football Hall of Fame. "Give Kids a Smile" is part of a national effort, sponsored by the American Dental Association.

As you can see, there are many wonderful things happening in CCS. Come check us out!

Sincerely,

Michele D. Evans

Silver and Gold at McKinley High School

★ Congratulations to the 2011 Northeast Central Ohio Scholastic Art Competition winners representing McKinley High School. Gabrielle Brownfield was one of fourteen selected to take home the gold out of this year's 177 excellent portfolio entries. More than 2,800 entries were submitted in the silver and gold key category with 297 wins awarded. Among those, Sparkle Mackey took home one silver and one gold key while Tyler Dalton earned one silver key. Receiving Honorable Mention were Tyler Dalton (1) and Erika Quarles (2).

Following the competition, the artwork was exhibited in the Fine Arts Building at Kent State University at Stark.

★ Exciting things are happening at the Arts Academy @ Summit!! The 21st Century After School Program, in collaboration with the Players Guild Youth Outreach Program, are presenting the musical on February 18th at 7 pm, and on February 19th at 2:00 pm on the Main Stage of the Players Guild Theater. The Players Guild has generously donated their wonderful stage for our production. What an awesome gift to the students in the Arts Academy's After School Program! Some of the students have been in musicals at the Arts Academy before, and for some it is their first time to be onstage. But for all of them it is a great opportunity to work with the professionals from the Players Guild, Miss Carrie and Miss Lisa, and to perform at one of the best theaters in Stark County!

The After School students worked extremely hard every afternoon, learning the songs, the dances, and their lines. Miss Carrie is directing, Miss Lisa is in charge of music, and Mrs. Flowers, the band and choir director at the Arts Academy, taught the dances. It took a lot of dedication from the staff and students to put together such an ambitious project.

We need help from you too, the community. The performances at the Players Guild will be free, and we need you to come and support our staff and students by filling up those seats!! So mark your calendars, and come February 18th or on the 19th to watch the first of what we hope will be many collaborations between the schools and community here in Canton.

TIMKEN'S ALL-CITY GRILLE

IS OPEN TO THE PUBLIC

★ The restaurant's varied menu includes everything from gourmet salads to unique pizzas, sandwiches, and wraps, including guest favorites such as the Chicken and Candied Pecan Salad and the All-City Club sandwich. Guests who frequent the restaurant enjoy a changing menu of weekly specials, including homemade soups and desserts.

The All-City Grille is a student-run restaurant and catering service at Timken Senior High School. The 75-seat restaurant is open to the public every Tuesday through Thursday from 11:30 a.m. to 1:30 p.m. The Grille offers a carry-out and a call ahead service. Calling ahead allows you to phone in your order, come to the restaurant, be seated and get served. This is extremely helpful when needing to dine quickly. A smaller private dining room is open to guests who would like to host a special event or lunch meeting. The All-City Grille is located at 521 Tuscarawas Ave. W., on the Timken High School campus. Hours of operation are: Tuesday, Wednesday, Thursday 11:30-1:30 for dine in, 10:30-1:30 for carry out.

For more information about The All-City Grille or the Culinary Arts program, please call 330.580.3014.

Canton City School Students

On November 19th, Summit College at The University of Akron hosted the fifth annual *We are IT Day*.

We are IT Day is a state-wide, multi-site conference for young women in grades 8 through 10 interested in exploring a career in technology.

Sixteen students from Canton City Schools spent the day on campus participating in hands-on FUN activities and co-mingling with college faculty, industry experts and other students from Northeast Ohio.

The mission of this professional event is to attract young ladies to the in-demand and highly compensated careers in information technology.

Students were engaged with actual college students and faculty in technology fields such as Computer Forensics, Web Design, Animation, Networking and Cabling, and Information Technology and Athletic Health Care a majority of the day.

Participate in We are IT Day

The students also took part in a question/answer session and were able to eat lunch with female informational technology professionals working with the Internal

Revenue Service, Kaiser Permanente, the University of Akron and Goodyear Europe Division.

Attending from the Arts Academy at Summit were Kaela Brown, Ashley Mallonn, Carly Moser, Ellie Repko, Kayla Guarnieri and Kathleen Wyler.

Hartford Middle School sent Ladaisha Walker, and Alaine Medina from Passages School attended.

From McKinley High School, Samantha Lilly, Stephanie Baity and Asya Currie were in attendance.

Timken High School students Desiree Clark, Marc'El Jessie, Ashuana Mathews, Alahna Singleton and Tessa Sokolousky also participated.

Stone Elementary	Monday, March 21 Wednesday, March 23	8:30 am – 11:30 am 12:30 pm – 2:30 pm 8:30 am – 11:30 am 12:30 pm – 2:30 pm
Worley Elementary	Tuesday, March 22	8:00 am – 2:30 pm
Youtz Elementary	Thursday, March 24	8:30 am – 3:00 pm

School nurse will do screening of new kindergarten students at registration time. Therefore, parents should bring their new kindergarten student with them. If you have any questions, please call Karen at 330-580-3010.

WoSI Worley Science Institute

★ On Thursday, February 24, Worley Sixth Graders will present WoSI – a day to salute Earth Science. Teams of Sixth Graders have been working with their teachers, Mr. Tulip and Mrs. Pisani to develop activities for the entire school. The day will begin with an all school assembly where Sixth Graders will present a play entitled, Big Turtle; a play based on Native American folklore as to how the earth developed. After that, smaller skits will be performed by a variety of sixth graders that further explain earth science concepts.

Each grade level will be invited to visit the 10 activities at a scheduled time during the school day. Students will participate in a variety of activities in a giant volcano, visit a mine, investigate crystals, enjoy a rockslide, utilize a seismograph, discover mountain building, and much more. Alfred Wegner will make an appearance from the past to explain his theory of continental drift. Even Elvis, the “King of Rock and Roll,” will have a place in this exciting event.

★ ★ ★

Belle Stone Peace Builders Serve At “The Samaritan Table”

★ Sixth grade boys at Belle Stone Elementary who meet weekly in a Peace Builder group had the opportunity to donate service first hand. In the true spirit of being a "Peace Builder" they were able to help and show kindness to those in need. The sixth grade boys donated their time and effort to serve lunch to individuals at "The Samaritan Table" at St. John the Baptist Church this past January. What a great way to give meaning to their efforts and help put service into action.

C.R. “Chic” Weaver, Licensed Funeral Director

★ The IlluminArts' Student Mentor Art Project matches high school students, from across the county, with professional artists, who will work together to complete a project in the artist's area of expertise, that will be presented to the public at the **IlluminArts Festival**. The festival will be held at the Timken High School Commons on Friday, March 18 and Saturday, March 19.

Mentors have been selected based on the type of work they do, their commitment to the community, their interest in promoting their art, and most importantly, their passion to develop the talents of the youth of our county. Mentors include a wide array of talented and passionate artists including painters, sculptors, musicians, fiber artists, photographers, glass blowers, architects, interior designers, actors, dancers, fashion designers, potters and writers.

Changes to the 2011 IlluminArts celebration include the following:

- Rock the Arts.** High school bands kick off the Celebration Friday night in the Timken High School Auditorium. **Canton Idol** and **Battle of the Bands** participants will perform. Friday, March 18.
- Artist Mentoring Program.** The highly successful and respected mentoring program is creating one day workshops for students unable to commit to multiple meetings with an artist. Saturday, March 19.
- Battle of the Brush.** In the past two Celebrations, **Battle of the Brush** turned creating art into a spectator sport. This year's **Battle of the Brush** theme is diversity. **Coming Together Stark County** will provide diversity awareness sessions for participants. The best murals are to be displayed on the Timken Campus and may circulate to other high schools. Saturday, March 19.
- In addition to the events listed above, area artists will display their art and the children's areas on the second floor will provide hands-on activities for children of all ages. Saturday, March 19.
- Please plan to attend the fun festivities Friday, March 18th and Saturday, March 19th, admission is free. Refreshments will be available for purchase at The All City Grille located in the Timken High School.

STUDENTS IN THE BROADCAST MEDIA PROGRAM RECENTLY EXPERIENCED ACTUAL ON-THE-JOB TRAINING, WHEN THEY VISITED WKYC TV CHANNEL 3 IN CLEVELAND.

★ Have you ever dreamed of being a news-caster, maybe create your own music video, run a camera, or perhaps be a TV reporter? If so, then Canton City Schools Broadcast Media program may be just for you. Students learn all aspects of creating a television program from behind the scenes production to the final product, which is the actual airing of the completed show. Students in the Broadcast Media program are responsible for most of the Canton City Schools TV Channel 11 programming. Students in the junior class produce the TV show *In Focus* which highlights special events and initiatives throughout the district while students in the senior class are responsible for the production and airing of *Sports 101*. *Sports 101* provide viewers with timely news and events focused around all areas of Stark County sports (both high school and college).

Students are getting as much out of the program as possible before going off to college. Brianna Bradley, a senior in broadcast media, says the program has allowed her to "broaden her horizons" as well as "develop her abilities to express herself creatively." Corey Metz enjoys the sense of community the broadcast media program offers him. He says this program "gives me a family at school." Evon Peterson likes how broadcast media has helped him build his self-confidence. He says he likes being noticed and recognized throughout the community as well as throughout the school. All three, as well as many other senior stu-

dents in the broadcast media program plan to attend college and major in some area of communications.

Along with producing Channel 11 TV shows, students in broadcast media participate in a variety of hands-on activities including daily announcements for both McKinley and Timken High Schools, running the jumbo-tron at Fawcett Stadium, working basketball games at the Field House and creating Public Service Announcements (CCS Broadcast Media placed 2nd in Fox Sports Ohio 2010 PSA Competition).

For more information about Broadcast Media contact Jaclyn Power, Broadcast Media teacher, at 330-438-2591.

Be a Part of the Solution

★ Alanna Ross, seventh grade student at Hartford, was recently recognized by the CCS Board of Education for placing first in the Community Coalition Against Violence "Be A Part of the Solution" poster contest. Alanna drew a poster depicting ways to promote peace in the community and also wrote a statement explaining how she would be a part of the solution. She received a \$100.00 cash prize and a certificate.

Allied Health at Timken High School

★ *“Seeing the patient’s calf muscle exposed was the coolest thing I have ever seen, that’s why I want to be an emergency room nurse,”* states Michael Ann Brumbaugh, Allied Health student at Timken Senior High School.

If you or your child has an interest in a medical field career; (doctor, veterinarian, nurse, dentist, medical assistant, athletic trainer, and more) Canton City Schools Allied Health college tech prep program may be an option for you. During the junior year, students learn medical terminology, anatomy and physiology and body systems, and then apply that learning in the hospital setting during their senior year. There are 17 different areas that students rotate through during their senior year in the program. Three days a week, senior students in the Allied Health Program can be found at Aultman Hospital doing rotations.

Stephanie Sigley , another senior student in the Allied Health Program, was impressed by the pharmacy robot. Stephanie actually loads medication into the robot which then distributes the medication to the hospital’s patients.

The Allied Health Program is designed to give students’ real-life, hands-on experiences in the medical field. Many of the students will transfer the 15 credit hours they earn through an articulated credit agreement with Stark State College and enroll in a 4-year

MICHAEL COLE, A SENIOR IN THE ALLIED HEALTH PROGRAM, EXAMS AN X-RAY BEFORE GOING TO HIS AULTMAN HOSPITAL ROTATIONS.

college as they plan to major in nursing or pre-med, or some other medical field. For more information about the Allied Health program please contact Carrie Barwick at 330-438-2647.

Give Kids A Smile

JAVONNA HAMMOND, BELDEN - 3RD GRADE

★ **Give Kids A Smile!** The Hartford Middle school choral group entertained those in attendance at the ninth annual Give Kids a Smile kick-off event this month. Over 120 students in grades two, three, four and five from Belden and McGregor were given free dental services through the Ohio Dental Association's Give Kids a Smile program. The Hall of Fame hosted the event with dentists from the community providing free services such as exams, cleanings, dental imprints, restorative care and preventative services.

Inside the Hall, students were educated about the importance of proper dental hygiene from some prominent individuals including Superintendent Michele Evans, Mayor Healy, Congressman Renacci and ESPN football commentator, Todd Blackledge. Parked outside the Hall was The Ronald McDonald Care Mobile of Northeastern Ohio, a 42-foot-long mobile dental facility equipped to treat the immediate dental needs for underserved children.

During the program, students were taken to the mobile clinic and given full-service dental exams. To set the students at ease, the dentists explained in detail what they would experience prior to the examination taking place. They were also provided with goody bags from the Ohio Dental Association and the Hall of Fame containing items needed to maintain proper dental care between visits to the dentist.
