

Versatrans MY STOP MOBILE APP

Versatrans My Stop® provides mobile access to bus information.

This app displays the location of the user's assigned school bus, as well as the estimated time of arrival to their stop. Students can plan for late or on-time arrival, and prevent missed pick-ups or waiting outside in inclement weather.

Mobile App Instructions:

- Download App onto your smartphone
- Launch the App Store on your iPhone or Google Play Store for Android phones
- Search for **"Versatrans My Stop" by Tyler Technologies, Inc.**
- Install the App and launch from your home screen
- Select the "Tap to select a school district" button - this brings up "Closest Districts"
- If Canton City does not come up, select "All Districts" button at bottom
- Enter Username (Students First name.Last name) and password (student birthdate mmddyyyy) to log-in
- Login credentials have been determined by your school district
- Once logged in, select the "Setup" button at the top right of the screen and then select change password to modify your login credentials. Usernames cannot be changed.
- The main screen of the app will display a map of the district
- You will see a yellow arrow on the screen that indicates where your child's bus is if there is a planned route for the current time*
- If you do not see an arrow there will be a message that states "no active routes found." This means that the child's route is not on the road at this time or that you have selected a student that does not receive school transportation.
- To swap between siblings without logging out, tap the student's name at the top left to bring up a list of all related students.

*Route information will be available 30 minutes prior to the scheduled pick-up or drop-off. In the set-up menu, enable Notifications if you would like to receive push notifications for bus delays.
